

Create test data for apex tests

RandomContactFactory

```
public class RandomContactFactory {  
    public static List<Contact> generateRandomContacts(Integer numcnt, string  
lastname){  
        List<Contact> contacts = new List<Contact>();  
        for(Integer i=0;i<numcnt;i++){  
            Contact cnt = new Contact(FirstName = 'Test' + i, LastName = lastname);  
            contacts.add(cnt);  
        }  
        return contacts;  
    }  
}
```
